

Customer Control Data Sheet

In brief ...

Providing high levels of customer service is a whole lot easier with Delstree Control because all of the information is easy to find and disseminate.

Full contact history is maintained against each customer record.

Full integration with order and quotation processing to ensure you see the complete picture.

Key Features

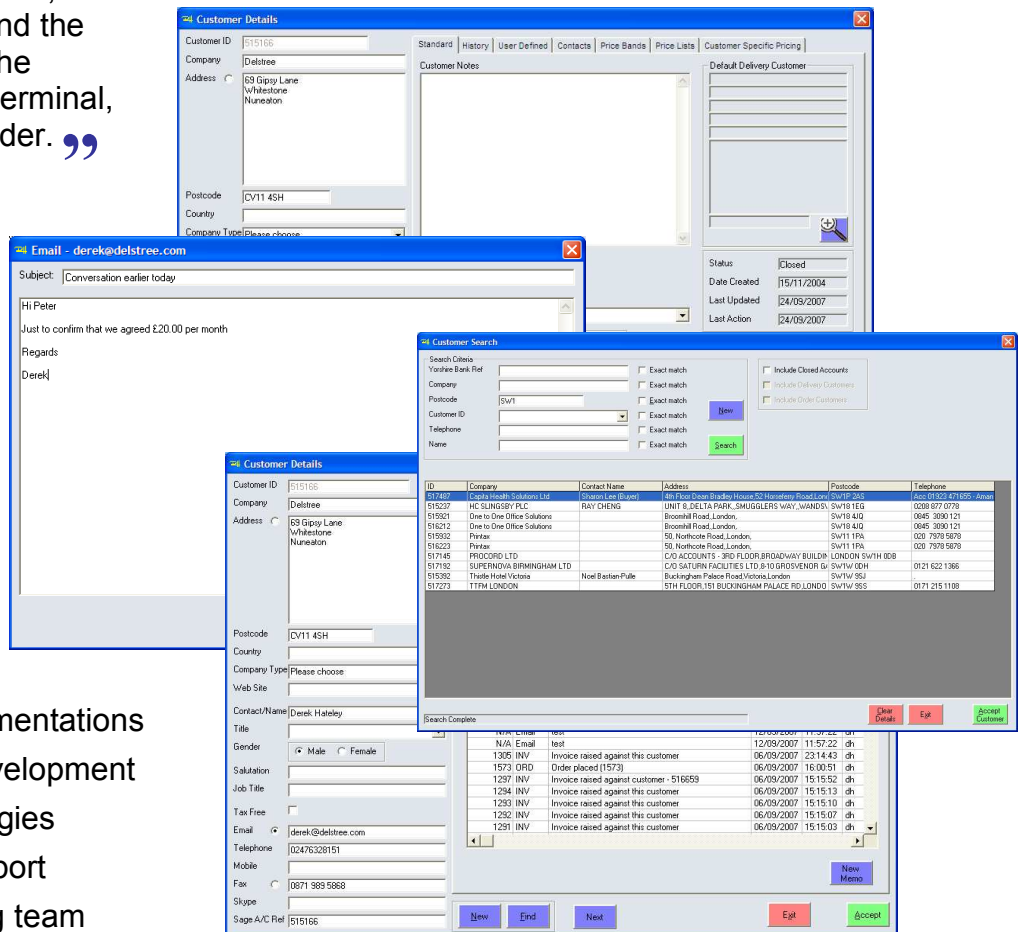

- Maintain separate order, delivery, invoice & drop-off addresses.
- Multiple pricing hierarchies include customer price bands, special offers and customer specific.
- Integrated Telephony
- Preferred method of receiving correspondence
- Fuzzy search options including postcode & company
- Full contact history

Benefits

- Improve brand awareness by using the contact methods your customers' want
- Use a single database to market and sell from
- Help to increase the value of each sale having headline order statistics at hand.
- Confidently quote prices, knowing they are the correct figures.
- Quickly identify existing customers and prospects to get on with the sell

“ The system is easy to use, with a well-laid out interface, and the entire documentation for the system is on each users' terminal, in case they need a reminder. ”

Ernie Schell,
Managing Director,
Marketing Systems Analysis

The screenshots show the Delstree software interface. One window displays 'Customer Details' for a customer with ID 515166, company 'Delstree', and address '63 Gipsy Lane, Whitestone, Nuneaton'. Another window shows 'Customer Search' results with a table of customer records. A third window shows an email draft to 'derek@delstree.com' with the subject 'Conversation earlier today'.
